How do you handle or deal with stress in your life?

Are you satisfied with your sleep?

How many hours of sleep do you get on average?

6 or less

6-8

more than 8

Do you doze off or nap during the day?

Do you fall asleep in less than 30 minutes?

Do you think your family and friends will be supportive of you making health and lifestyle changes to improve your quality of life? If not, explain:

Who in your family or on your healthcare team will be the most supportive of you making dietary changes?

What are your health goals? Why do you want to achieve this?

Consent for Medical Weight Loss Treatment

I, _____, (patient) do hereby authorize the providers, staff and Wellness Coordinator of Consiglio Wellness Center to assist me in weight reduction. In order to be successful, I fully understand that this program consists of behavioral lifestyle changes and that my treatment may include the use of appetite suppressants and other supplements. I further understand that in order to continue to receive appetite suppressants, I must show continued weight loss.

Regarding the use of appetite suppressants, I understand that there are potential risks involved. Reported side effects include nervousness, constipation, sleeplessness, headaches, dry mouth, weakness, tiredness, medication allergy, high blood pressure, rapid heartbeat and heart irregularities. I understand that these and other risks could, on occasion, be serious and possibly permanently disabling. _____initial

I understand that if I develop side effects from the medication, I will discontinue taking the medication and notify the staff at Consiglio Wellness Center, as well as my primary care physician, immediately and in the event the problem is severe, I will go to the nearest Emergency room for immediate care. I do not have a history of alcohol abuse, drug abuse, schizophrenia, manic-depressive illness, or eating disorder, as these conditions constitute a contraindication to the use of appetite suppressants. _____initial

I agree not to take any other weight loss medications, other than those prescribed by the providers of the Consiglio Wellness Center and further agree to inform the Consiglio Wellness Center staff of ANY changes in my medication or medical history. _____initial

Female patients – I am not pregnant, nor am I trying to get pregnant. If I become pregnant, I will stop taking the medication, notify the Consiglio Wellness Center and my OB/GYN immediately. I am not breastfeeding. _____initial

I understand there are other ways and programs that can assist me in my desire to decrease my body weight and to maintain this weight loss. In particular, a balanced calorie counting program or an exchange eating program without the use of appetite suppressants would likely prove successful if followed, even though I would probably be hungrier without the appetite suppressants. I understand the risk associated with being overweight/obese, which include the possibility of death, high blood pressure, diabetes, heart attack and heart disease, stroke, arthritis of the joints, hips, knees and feet, and gallbladder disease. I also understand that rapid weight loss programs may increase the incidence of symptomatic gallbladder disease. _____initial

There is no guarantee that this program will work for me. I understand that I must follow the program as directed, in order to achieve weight loss. By consenting to treatment, I agree to pay, in full, for all visits and charges incurred at each visit. By signing below I certify that I have read and fully understand this consent form and understand the risks associated with my treatment for weight loss.
